Fun Facts About The Cabbage Patch Kids

You love your Cabbage Kids, but how much do you know about their history? Here are some fun facts to memorize and share with family and friends. Did you know...

- Cabbage Patch Kids are born every day at BabyLand General® Hospital in Cleveland, Georgia — nurses are always available when Mother Cabbage is ready to deliver!
- Babyland General is one of Georgia's top tourist attractions!
- In 1985, Christopher Xavier became the first Cabbage Patch Kid to fly aboard a US Space shuttle. He now lives in the Smithsonian Museum in Washington, D.C.
- Cabbage Patch Kids are always "1-of-a-Kind" — there are no two exactly the same!

Cabbage Patch Creation

During the times of the Pilgrims, the Indians lived in teepees. Teepees were made from long poles put together in the shape of an upside-down ice cream cone. Then the poles were covered with white material (made from animal skins).
A fun project for Thanksgiving is to make a teepee – but one you can eat! Share this tasty treat with your family and friends!
(Note for parents: This recipe shows you how to make your own icing, but store-bought, pre-made icing can be substituted.)

What you need

- Sugar cones
- Confectioners' sugar
- Unsalted butter
- Vanilla extract
- Cake-decorating icing
- Decorative candies
- Toothpicks

How to make it

1. In a mixing bowl with an electric beater set at low speed, mix 2 cups of sifted confectioners' sugar, 1/4 cup of softened, unsalted butter, and 1/2 teaspoon of vanilla extract until smooth and spreadable. Stir in a bit of milk, if needed.

2. Use the icing to lightly frost eight ice cream sugar cones, then place them in the freezer for a few minutes until the icing hardens.

3. Now use tubes of cake-decorating icing to draw linear patterns and images and glue on decorative candies. For lodgepoles (the poles that stick out at the top of the teepee), insert toothpicks into the tip of each cone.

SPECIAL DELIVERY: CABBAGE PATCH KIDS NEWS!

The Cabbage Patch Newborns are here! They are the teeniest, tiniest Cabbage Patch Kids ever! Newborns rely on their parents to take care of them. So each Newborn comes with a 4-in-1 carrier which converts into a car seat, a carrier, a rocker and a feeding chair. The CPK Newborns also come with their own bottle, baby book, name, birth certificate and adoption papers! Are you ready to be the mommy of a Newborn? Have fun and take good care of your Cabbage Patch Kids Newborn!

IN STORES NOW!

Back To School

All kids have to do homework. Some love it and others don't like it so much. Either way, you can make your desk or table where you sit to do homework a little more interesting and fun. Do this by turning your drawings and paintings into pencil holders. Put your Cabbage Patch Kids in the picture, so they can "help out" with your homework. Having your Kid nearby along with some of your best art makes homework a lot more fun!

What You Need:

- A piece of white or colored paper
- Tin can
- Crayons, magic markers or paint
- Glue

How To Make It

1. Draw a picture on your paper. Maybe your Cabbage Patch Kid is at school, or playing. Maybe your Kid is having lunch with friends, or even doing homework. Be Creative!
2. Put a little glue on the back of the paper and a little on your tin can.
3. Carefully, wrap your picture around the tin can. Try to get it even and make sure they aren't any folds or wrinkles in the paper.
4. Fill your Pencil Holder with your favorite pencils, pens, markers, scissors and more!
